**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

Order Instituting Rulemaking to Implement the Commission's Procurement Incentive Framework and to Examine the Integration of Greenhouse Gas Emissions Standards into Procurement Policies.

Rulemaking 06-04-009  
(Filed April 13, 2006)

**ADMINISTRATIVE LAW JUDGES' RULING REGARDING  
COMMENTS ON STAFF NATURAL GAS PROPOSAL  
AND NOTICE OF PREHEARING CONFERENCE**

**1. Summary**

Today's ruling provides notice of a prehearing conference (PHC) that will be held to address the manner in which regulation of greenhouse gas (GHG) emissions in the natural gas sector will be considered in Phase 2 of Rulemaking (R.) 06-04-009. We allow parties to file PHC statements addressing the scope, schedule, and need for evidentiary hearings regarding the natural gas inquiry. In their PHC statements, parties may include comments on the preliminary recommendations of the Public Utilities Commission Staff regarding the regulatory treatment of GHG emissions in the natural gas sector. The Staff recommendations are contained in Attachment A to this ruling.

**2. Notice of PHC and Due Date for PHC Statements**

A PHC will be held at 10 a.m., on August 2, 2007, at the Public Utilities Commission Courtroom, State Office Building, 505 Van Ness Avenue, San Francisco, California 94102.

The purpose of the PHC will be to address procedural matters regarding consideration of the regulatory treatment of GHG emissions in the natural gas sector, including coordination with the electricity sector inquiry already underway in Phase 2. At the PHC, we anticipate addressing scoping issues, scheduling, and other procedural matters, including the need for evidentiary hearings. Parties may file PHC statements addressing these issues no later than July 26, 2007. In preparing their statements, interested parties should review the Order Instituting Rulemaking (OIR), Decision (D.) 07-05-059 amending the OIR, D.06-02-032, and Attachment A to this ruling.

### **3. Scope of Natural Gas Inquiry in Phase 2**

In Phase 2 of this proceeding, the Public Utilities Commission is developing joint recommendations with the California Energy Commission (Energy Commission) regarding regulatory treatment of GHG emissions in the electricity and natural gas sectors. These recommendations will be presented to the California Air Resources Board (ARB) as it implements Assembly Bill (AB) 32, "The California Global Solutions Warming Act of 2006," signed into law on September 27, 2006.

As originally scoped, Phase 2 was to consider customer use of natural gas, with natural gas used for electricity generation to be considered in the load-based GHG emissions cap for the electricity sector and with customer use of natural gas for other purposes to be considered separately. In light of the economy-wide scope of AB 32, D.07-05-059 broadened the natural gas inquiry to also consider GHG emissions due to the transmission, storage, and distribution of natural gas delivered to all end-use customers in California, including natural gas delivered for use in electricity generation. Thus, the natural gas inquiry in Phase 2 will address GHG emissions associated with (1) combustion of natural

gas by non-electricity generator end-use customers and (2) all transmission, storage, and distribution of natural gas within California.

Consistent with D.07-05-059, Phase 2 will develop guidelines and recommendations regarding GHG emissions in the natural gas sector that ARB could apply both to investor-owned utilities regulated by the Public Utilities Commission and to other natural gas entities that are not regulated by the Public Utilities Commission.

As noted in the Phase 2 Scoping Memo, while a primary outcome of Phase 2 will be the submission of guidelines for ARB's consideration, the Public Utilities Commission may also adopt regulations to address GHG emissions of entities subject to its jurisdiction.

We expect that, after the PHC, the assigned Commissioner will issue an additional scoping memo in Phase 2 specifying the issues to be considered regarding the natural gas sector, consistent with D.07-05-059.

#### **4. Staff Recommendations Regarding GHG Emissions in the Natural Gas Sector**

While more detail is provided in Attachment A, the Public Utilities Commission Staff has made the following preliminary recommendations regarding GHG emissions in the natural gas sector:

- If a cap-and-trade regime is established for the California economy, the natural gas sector should be a capped sector.
  - Emissions from smaller natural gas end users should be regulated at the distribution utility level within a natural gas sector cap, whereas larger natural gas end users should be regulated as point sources and not as part of the natural gas sector.
  - Electric generation natural gas customers should be treated as part of the electricity sector, not the natural gas sector.

- Emissions from transportation-related uses of natural gas should be addressed by ARB as part of the transportation sector, not the natural gas sector.
- Emissions associated with the transmission, distribution, and storage of natural gas for all end uses should be regulated within the natural gas sector cap.
- In Phase 2, policy issues regarding the framework for GHG emissions regulation for the natural gas sector (such as described above) would be handled separately from electricity sector issues.
- Phase 2 would not consider GHG emissions reporting and tracking or 1990 baseline emissions for the natural gas sector, with those issues to be addressed instead through the ARB processes.
- Staff would issue a data request to obtain natural gas entities' current emissions data.
- Electricity and natural gas sector inquiries in Phase 2 would be combined regarding emissions reduction measures, annual sector emissions caps, flexible compliance mechanisms, and entity-specific allowance allocations.

Parties are asked to comment in their PHC statements on the preliminary Staff recommendations. While Staff has made both substantive and procedural recommendations in Attachment A, the PHC will focus on procedural mechanisms for consideration of natural gas issues in Phase 2, including coordination with the electricity sector inquiry.

D.07-05-059 and the Staff report in Attachment A recognize that the treatment of distributed generation and combined heat and power facilities requires close examination and coordination as policies for the electricity and natural gas sectors are considered. In their PHC statements, parties should identify any additional issues that may overlap and/or require close coordination between the electricity and natural gas portions of Phase 2.

## 5. Phase 2 Schedule

In D.07-05-059, the Public Utilities Commission established a preliminary schedule for development of guidelines regarding GHG emissions policies for the natural gas sector, as follows:

Ruling scheduling PHC and providing for the filing of PHC statements on natural gas issues	June 2007
PHC on natural gas issues	June 2007
Additional Phase 2 scoping memo to address natural gas sector	July 2007
Assigned Commissioner's Ruling with natural gas reporting recommendations to ARB	September 2007
Assigned Commissioner's Ruling with recommendations to ARB for 1990 GHG baseline for the natural gas sector	October 2007
Staff Report	January 2008
Commission Decision	September 2008

In their PHC comments, parties should discuss the sequencing (phasing) and timing for addressing natural gas issues, coordination with the electricity sector inquiry in Phase 2, coordination with the ARB process, and modifications that are needed to the preliminary schedule contained in D.07-05-059. We are interested in parties' opinions about the priority assigned to different issues and the amount of time that should be allotted for each issue. Parties should indicate in their PHC statements if there are other scheduling considerations (e.g.,

hearings in other proceedings) that should be considered in developing a final schedule.

D.07-05-059 contemplated that Assigned Commissioner's Rulings would be issued with recommendations to ARB on reporting requirements and 1990 baseline GHG emissions for the natural gas sector. Parties should comment on whether, instead, the ARB processes should be the primary vehicles for addressing reporting and 1990 baseline GHG emissions issues, as recommended in the attached Public Utilities Commission Staff report.

As specified in D.07-05-059, it is the Commission's intention to complete this rulemaking within 24 months of the date of the Assigned Commissioner's scoping memo to be issued regarding natural gas issues in Phase 2, rather than the 18 months specified in Pub. Util. Code § 1701.5.

## **6. Service List, Filing Requirements, and Electronic Service Protocols**

In addition to the service list in R.06-04-009, today's ruling will be served on the publicly-owned natural gas utilities, the interstate pipeline companies doing business in California, and other natural gas entities, as listed in Attachment B to D.07-05-059. It will also be served on the service lists in the following proceedings:

- R.04-01-025, regarding natural gas supplies and infrastructure;
- Application (A.) 04-12-004, regarding integration of the natural gas operations of SDG&E and SoCalGas; and
- A.07-03-012, regarding PG&E natural gas transmission and storage services.

After this ruling, we will no longer serve rulings on entities that are not on the service list in R.06-04-009. Persons who become a party to this proceeding, as provided in Rule 1.4 in the Public Utilities Commission's Rules of Practice and

Procedure (Rules), will be added to the service list. Persons who are not parties may be added to the state service or information-only portion of the service list, as appropriate, by contacting the Commission's Process Office at [Process\\_Office@cpuc.ca.gov](mailto:Process_Office@cpuc.ca.gov).

To support the ability of the Public Utilities Commission and the Energy Commission to develop joint recommendations to ARB, we ask that parties submit their PHC statements both in R.06-04-009 and to the Energy Commission's docket 07-OIIP-01.

Procedures for submitting the PHC statements to the Energy Commission are included here for the parties' convenience. The Energy Commission encourages comments by e-mail attachments. In the subject line or first paragraph of the comments, include **Docket 07-OIIP-01**. When naming your attached file, please include your name or your organization's name. The attachment should be either in Microsoft Word format or provided as a Portable Document File (PDF). Send your comments to [docket@energy.state.ca.us](mailto:docket@energy.state.ca.us) and to project manager Karen Griffin at [kgriffin@energy.state.ca.us](mailto:kgriffin@energy.state.ca.us). In addition to electronic filing, **one paper copy** must also be sent to:

California Energy Commission  
Docket Office, MS-4  
Re: Docket No. 07-OIIP-01  
1516 Ninth Street  
Sacramento, CA 95814-5512

Therefore, **IT IS RULED** that:

1. A PHC shall be held at 10 a.m., on August 2, 2007, at the Public Utilities Commission Courtroom, State Office Building, 505 Van Ness Avenue, San Francisco, California 94102.

2. As directed in this ruling, parties may file PHC statements no later than July 26, 2007 addressing scoping and scheduling issues and including comments on the preliminary recommendations of the Public Utilities Commission Staff contained in Attachment A.

3. Parties shall file their PHC statements at the Public Utilities Commission's Docket Office and shall serve them consistent with Rules 1.9 and 1.10 and Resolution ALJ-188. The parties shall serve their PHC statements on the service list for R.06-04-009 posted at [www.cpuc.ca.gov](http://www.cpuc.ca.gov) when the PHC statements are due, and shall mail a hard copy of the PHC statements to the assigned Commissioner and the assigned Administrative Law Judges.

4. This ruling shall be served on the service lists in this proceeding, R.04-01-025, A.04-12-004, A.07-03-012, and the individuals and entities listed in Attachment B to D.07-05-059.

Dated July 12, 2007, at San Francisco, California.

**INFORMATION REGARDING SERVICE**

I have provided notification of filing to the electronic mail addresses on the attached service list.

Upon confirmation of this document's acceptance for filing, I will cause a Notice of Availability of the filed document to be served upon the service list to this proceeding by U.S. mail. The service list I will use to serve the Notice of Availability of the filed document is current as of today's date.

Dated July 12, 2007, at San Francisco, California.

/s/ KE HUANG
